Comments	<input type="text" value="you know all the reasons. Stop procrastinating,no one who lives in loxwood would be in favour of this unless paid off . To satisfy your governmental ocd : protection of wildlife,dangerous roads because of increased traffic particularly large vehicles,increased cost of road maintenance,increased pollution as all vehicles will be diesel emitting fumes(in direct contradiction of the global warming narrative).Destruction of habitats that will be lost forever. Movement of peoples from outside the area into our community in direct violation of so called covid 19 rules(albeit temporarily relaxed although it is pretty clear more lockdowns are on the way) which do not appear to have any effect when council policy needs to be changed!!!!!!"/>
