

Comment for planning application WSCC/030/21

Application number	WSCC/030/21
Name	Glyn Woodage
Address	PANCAKE COTTAGE, STATION ROAD, STATION ROAD, BILLINGSHURST, RH14 0SJ
Type of Comment	Objection
Comments	<p>This is my 2nd letter of objection and I confirm i've thoroughly reviewed the further documents/comments provided by the applicant. The applicant has throughout this process including the initial consultations deliberately and cynically played down both the suitability of this enterprise and the impact on the whole area.</p> <p>Furthermore this latest submission has only increased my worries about this proposal. The demand for clay is still unproven and no further evidence of any value was supplied. The applicant also drew attention to a successful specialised small-scale "vernacular" brick manufacture aligned to a major UK brick making enterprise, this evidence should not be considered by you as relevant in supporting this application. I cannot understand why an application for something which will have such a hugely negative impact on the environment and poses a considerable danger to pedestrians can even be considered especially when the the applicant has ignored many species which will be impacted. Also where they have completed survey's they've only carried out this vital evidence in a very limited way which does not take into account fully the planned developments total impact.</p> <p>I'am also extremely concerned about the increased in traffic and safety for pedestrians, cyclists and horse riders. The additional documents have done nothing to mitigate these concerns and in fact I feel the applicant is underestimating the number of additional lorries needed for the augmented operation. in addition the authorities have no suitable ways of enforcing these and other undertakings promised. I would therefor ask you to refuse this application.</p>
