Joan Algar

19 Runnymede Road Whickham

Type of Comment Comments

Objection

I have already lodged an objection to the first application and from the additional information now submitted, I continue to object strongly to this application. In particular I don't understand the assumption that my postcode of should exclude me from commenting - I have been using these routes for over 20 years and would wish to continue to do this as long as I am able. This planning application will destroy the essence of these woods and much of the threatened wildlife they support. They have presented no clear evidence of any benefit this application would bring to the area. There is no further proof for the necessity for producing clay and the access to extract it from these pristine woods, some of which are ancient, will undoubtedly cause damage to the local environment for many years to come. In summary I strongly object to this application.
