Comments	<p>Transport exports predict that traffic entering and leaving the site will be 200% of that anticipated by the applicant. These roads are already too busy and not wide enough to cope with HGVs. Moreover the application for the entrance is narrow .. only a matter of time before there is an accident with slow moving vehicles waiting to enter or leave the premises.</p> <p>This is such a beautiful area of woodland. So many varieties of flowers, animals, trees and fungi are seen at all times of the year .. we Loxwood residents have been so lucky to enjoy this area.. it saddens many of us greatly to think that anyone would wish to destroy this. Please don't let them.</p>
