Objection

I have already lodged an objection to the first application and the additional information now submitted by the applicant does nothing to change my view. I continue to object strongly to this application. I see no attempt to address the concerns of local residents who use both the roads and the Pallinghurst woods for recreation. This planning application will destroy the essence of these woods and much of the threatened wildlife they support. The applicant has presented no clear evidence of any benefit this application would bring to the area. There is no further proof for the necessity for producing clay and the access to extract it from these woods, some of which are ancient, will undoubtedly cause damage to the local environment for many years to come. The local roads and the access into the layby from the Loxwood to Bucks Green road will be extremely dangerous for walkers, cyclists and horse riders because of the HGVs travelling on Loxwood Road & on the proposed site. I also find it ironic and quite offensive that the applicant is trying to exclude valid comments from visitors outside of the immediate postcode area when they themselves live nowhere near the proposed site.
