Objection

I object to the plan proposed by Loxwood Claypits Limited. As a resident on Loxwood Road I am very concerned on the increased traffic on the road and believe the applicant has materially underestimated the number of vehicle movements required. The junctions to the road and numerous sections on the road (to Rudgwick) are not safe for vehicles of the size proposed and will ultimately lead to accidents and serious harm to life.

I continue to refute the LCP claims of the need for increased clay production is Surrey or Sussex and have found no evidence to substantiate their claims. The claims appear entirely at odds with public documentation showing the reduced demand for clay in brickworks and elsewhere.

The proposed safety mitigations access the public rights of way are never satisfactory or adequate and will lead to harm to life for those using the woods.
