Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Jean Lawrence	
Address	BRIDGE ROAD, 7, BRIDGE ROAD, HORSHAM, RH12 3HD	
Type of Comment	Objection	
Comments	I totally object to the wilful destruction of the environment where there is absolutely no justification for a clay pit or recycling facility of this type. Not only will this potential development completely ruin an attractive and abundant site in terms of biodiversity, it will also destroy communities (plural) with the intended lorry movements. The movements onto the site are in a dangerous location where visibility is minimal, but I suppose this will end up being another area where the speed limit is reduced to 40 mph as a result. This development must not go ahead.
