

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Jo Plowright"/>
Address	<input type="text" value="TAMAR, LOXWOOD ROAD, LOXWOOD ROAD, HORSHAM, RH12 3DR"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I would like to reiterate my strong objection to the plan; the recent extra submission by the applicant does nothing to change the nature of the original application.</p> <p>The applicant's criticism of WSCC minerals and waste policies indicates that they know there are flaws in their plan, they just don't like the policies. They should be complying with these policies rather than complaining about them.</p> <p>There is no new justification of their claim for a need for any extra construction materials recycling in West Sussex.</p> <p>The serious road safety impact of the extra lorries continues to be a major concern; not only at the junction of the A281, but along a narrow Loxwood Road regularly used by horse riders, cyclists and pedestrians, and also at the proposed site entrance which does not meet minimum visibility requirements.</p> <p>Why are the applicants attempting to dismiss any objections by non-locals? My family regularly visit and enjoy the area and their views should be equally valid.</p> <p>I implore again that the persons making decisions on this plan come to the area and see for themselves what is at stake.</p>
