

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Genevieve Lebus"/>
Address	<input type="text" value="WEAVERS, DRUNGEWICK LANE, DRUNGEWICK LANE, BILLINGSHURST, RH14 0RP"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>Please note this is my second objection to this planning application and everything I wrote in my earlier one still stands. The submission of 'additional information and rebuttal' incentivised me to write again.</p> <p>With reference to pages 125-126: The applicant's analysis to showing the likely tipper truck route reassures me in no way whatsoever - the local road network cannot sustain this industrial HGV movement. The diagram looks dangerous and does not include horses or pedestrians.</p> <p>Page 23 - some of the objections are indeed similar to the points made by the local community action group (STCP). But doesn't that show the breadth and depth of feeling in the local community that they set up the group in the first place and secondly that they have rallied to give advice so people can give an objection of meaning and hopefully influence.</p> <p>We live in a safe, peaceful and rural community and such a huge industrial site will not benefit the community in any way but would shatter lives.</p>
