

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Ian Colclough"/>
Address	<input type="text" value="Flat, 137 Oatlands Drive Weybridge Surrey KT13 9LB"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>In response to the planning application my further objections are as follows. The Applicant is not happy with the West Sussex County Council's policies regarding protecting the environment &amp; community from development that is inappropriate. Why do not they embrace these policies that are aimed at preserving our fragile &amp; precious environment? I live 30+ miles away very close to where the owners of Pallinghurst Woods live, &amp; travel to the woods a minimum of twice a week to enjoy the peace, tranquility &amp; lovely variety of flora &amp; fauna to be found there, these will be severely impacted if this planning application receives approval. Am I objecting to the plans submitted because I am a "NIMBY"? Well clearly I am not, my objections are as valid as those who live in the villages near the proposed development, it's just that they will be more affected, particularly because the Loxwood Road &amp; the turning into Pallinghurst Wood will be extremely dangerous places to be with the extra lorry traffic using this rural thoroughfare. Our countryside is precious, &amp; a business development must embrace the needs of the people, not dismiss them because their views differ from the opinions of the developers. This proposed development fails to satisfy too many issues, both planning &amp; community needs &amp; safety based.</p>
