Comments	<p>This planning application would be an absolute disaster for the neighbourhood. The wildlife and surrounding countryside would very much be affected. This forest is used everyday by the surrounding locals and is a much cherished part of our community. The children have been brought up in this safe forest cycling, walking and running. It would never be the same and it would not be a safe place anymore with big truckloads going in and out. If this application goes through we would seriously thinking of moving somewhere more rural. We have horses living in fields along the Loxwood road and the amount of lorries going past us will not be feasible for us turning horses out in the same way.</p> <p>We must keep our rural areas rural and priorities nature and wildlife of any kind of money making nature destroying businesses. It's our obligation for future generations. Please don't let this happen.</p>
