Comments	<p>I find the information that the applicant has tried to find out the location of the objectors very disturbing.</p> <p>On what basis do they think the y have a right to decide on a consultation area.?</p> <p>The applicant has objected to the Mineral and waste policies which are set out for the protection of the community and the environment.</p> <p>This attitude shows a total lack of consideration and regard for the people living, working,and using the surrounding countryside.</p> <p>This appears to be bullying at its worst level.</p> <p>The application contravenes WSCC minerals policy</p> <p>There has been no evidence to suggest a further demand for clay put forward</p> <p>There is no shortfall of clay in Surrey</p> <p>There is no clear information on how the safety of the Horse Riders, walkers and other legitimate users of the Footpaths and Bridleway will be addressed</p> <p>A walker or Hors e and Rider is no match for a heavy vehicle driver in a hurry!,,</p> <p>There is a great risk to the current users when sharing PROW 795</p> <p>.</p>
