Comments	Thus planning application is at complete variance to the quiet country location. I live on the Loxwood Road, I am nearly 70 and do not want noisy, dangerous lorries on a road which is already very dangerous. My neigbours have young children and regularly walk on the road to the local foot paths. It is a major cycling roadway both at weekends and during the week, so there is an enormous safety issue. A person was killed on the road just beyond the bridge who was a guest at my farm Any dressing up of the application does not change the actual facts Please please do not proceed with this application Regards Dr Kenneth Ivil
