Type of Comment	Objection
Comments	<p>WSCC/030/21</p> <p>The latest "additional information and rebuttal" that has been submitted by the applicant bares no relevance to supporting approval to the application.</p> <p>This application further demonstrates the complete lack of responsibility to the area and community by the applicant. Why would a Dorset Brickmaker be advertised to support the destruction of ancient WEST SUSSEX woodland and quiet rural communities? It seems utterly farcical that the additional information adds any weight in helping this application reach approval.</p> <p>Insulting local residents' objections is a mere attack on our homesteads through noise and traffic pollution. It severely endangers people's lives on these narrow lanes, which are already dangerous enough with road maintenance already overlooked by the local councils.</p> <p>It is wholeheartedly a quest to destroy local woodland, natural habitats and fona for greed as we all know once approved, this will end up as a landfill site further poisoning the countryside. I stand by my previous objection and wholeheartedly object to this application.</p>
