Comments	<p>This is a repeat of my original objections:</p> <ol style="list-style-type: none">1. This application is for something that is not required. Other brickworks in the area have closed over the last few years or are closing imminently.2. Brick extraction sites are always situated with their associated brickworks to minimise movement of the clay & it's associated expense.3. This site is completely unsuitable for this type of development being well established woodland which is criss-crossed with footpaths & bridleways which are very well used.4. Loxwood Road is completely unsuitable for a constant procession of lorries. It is a small country road with no footpaths along most of it. Many horse riders are forced to use it to reach bridleways; horses and lorries on a narrow road are a dangerous combination.5. The access onto the A281 is not easy now & certainly not suitable for a regular stream of lorries. There is no suitable alternative.6. This area is becoming busier with many new residents in Loxwood using the Loxwood Road to get to Horsham; more lorries throughout the day will only make it more dangerous. <p>This whole application is in completely the wrong place & for a supposed need that is not there.</p>
