Comments	<input type="text" value="I have previously objected to this application and wish to repeat my firmly held view that this application is entirely inappropriate and should not be allowed to proceed. There is no clear need for this site, there will be hugely damaging effects resulting from the additional traffic on an already significantly over burdened infrastructure, and the ruination of our local area will be very substantial. Allowing this application will destroy our cherished local area for years to come and severely impact the quality of life for local residents. As such, I strongly urge the Council to please protect our local environment, stand up for local residents and refuse this application. Thank you."/>
