Objection

The site at Broadford Bridge is 'sub-commercial' and keeping it open is likely to be a way for the applicant UK Oil & Gas to put off the evil moment when it has to decommission and restore the site. UKOG is not a financially stable company, it tried to avoid its responsibility to restore the site at Markwells Wood. So WSCC should not permit this extension. The site should be closed now while UKOG still has the finances and can be made to restore it. Otherwise, given UKOG's precarious financial position, the costs of restoration will likely fall to the landowner or the public purse.
