Comment for planning application WSCC/046/23

Application number	WSCC/046/23	
Name	Derek Stewart Smith	
Address	JAYSFIELD, THE STREET, THE STREET, PETWORTH, GU28 0QB	
Type of Comment	Objection	
Comments	The fluids circulating from the well would be highly corrosive and would damage the heat exchangers and associated pipe work leading to leaks which would impact detrimentally on the surrounding environment. There are no calculations or drawings to prove the viability of the project to justify the proposed delay of the Site Reclamation. The Applicant must prove viability. There is no reason to delay the site Reclamation
