Comment for planning application WSCC/046/23

Application number	WSCC/046/23	
Name	Jeremy Lindsey	
Address	WATERS EDGE, 6, WATERS EDGE, PULBOROUGH, RH20 1AX	
Type of Comment	Objection	
Comments	I strongly object to this application. It has been six years since UKOG stopped trying to extract oil from this site. They should have cleaned the site up and left a long time ago. Each time they have been given two years to extend their operations nothing has come of it. Enough is enough, the latest proposal is so far fetched it is beyond satire. It is time the site was closed and properly cleaned up. I understand that on other sites in the south of England this company has had to be forced to undertake restorative action. Let's not end up in the same situation at Broadford Bridge.
