Comment for planning application WSCC/046/23

Application number	WSCC/046/23
Name	Chris Crook
Address	18 Vincent Rd Dorking, Surrey RH43JB
Type of Comment	Objection
Comments	I strongly object to this application for many reasons tThe top 2 are: 1. Climate Change- councils and governments have a legal obligation to meet targets and drilling for oil or gas will result in that failing 2. UKOG operations have caused earthquakes in the past. They said they were not present at the time although further evidence showed they had lied. We cannot trust them not to cause earthquakes in the area again and try to cover it up.
