Comment for planning application WSCC/046/23

Application number	WSCC/046/23	
Name	Kerry Owen	
Address	THE TYNINGS, 28, THE TYNINGS, LANCING, BN15 8PW	
Type of Comment	Objection	
Comments	Frankly, the outlook on the effects of the ever-rising earth temperature is terrifying, especially as a parent to a young son, and any impact on climate change is a legitimate reason for local government authorities to refuse these types of applications. It is important to act responsibly now and stop hydrocarbon extraction and any impact from methane emissions in Sussex.	
	Your strategy as a council is to achieve net zero by 2030. How will this be possible if you keep allowing further extensions to oil and gas sites just to see if they can drill for more hydrocarbons within 2 years?
