Comment for planning application WSCC/046/23

application to retain their site and delay restoring the well they drilled in 2017. This increases the life of this dud oil site to 115 months despite their promises to be off-site within 12! West Sussex Planners must stop pandering to UKOG's lies and prevarications before it is left to the Council to stump up restoration funding. The reasons behind these extensions are more due to commercial issues as we continue to see UKOG's share price plummet, oil sites drop from their portfolio, delays and expenses due to community appeals against their activities. There is no doubt that any funds to finance the site	Application number	WSCC/046/23	
Type of Comment Comment UKOG is trying to avoid its job to remove the mess it made at Woodbarn Farm, Broadford Bridge and restore the site as was before their drilling. And they are at it again! UKOG have submitted their FIFTH application to retain their site and delay restoring the well they drilled in 2017. This increases the life of this dud oil site to 115 months despite their promises to be off-site within 12! West Sussex Planners must stop pandering to UKOG's lies and prevarications before it is left to the Council to stump up restoration funding. The reasons behind these extensions are more due to commercial issues as we continue to see UKOG's share price plummet, oil sites drop from their portfolio, delays and expenses due to community appeals against their activities. There is no doubt that any funds to finance the site restoration have not been ring-fenced or guaranteed in any way. This site needs to be restored before a chance of bankruptcy, leaving restoration costs to locals and other taxpayers.	Name	Cicely Chadwick
