****EXTERNAL****

Dear Sirs and Madams,

While we the public are constantly subject to tight deadlines, like 28 days to pay a fine lest the bailiffs are sent, or 2 months to complain about a public body's failure - you get my drift - developers and corporations get away with endless procrastination and obfuscation. Example: a community bid for a tender, elsewhere in the country, was rejected in 2016 because it would 'probably' not meet the timescale of completion within 3 years whereas the developer who won the tender has not even started, 8 years down the line. Without any enforcement or penalties, I hasten to add. We the public are sick to the back teeth of this one-sided favouritism of corporations (there is another word for this, in Mussolini's definition) and of ALL of our public assets being sold and destroyed supposedly in the name of progress. You are a Council. You have to represent the interests of the people, not of the coffers. Though you may think that's the same thing, we do not. Please make a start with not only carrying out your own policies but being seen to do so?

Please put the thumbscrews on UKOG to follow the rules and make good the site?

Yours faithfully,
Michaela Smith
