Subject: RE: Wisborough Green - further information submission

Hi James,

We will be in a position to submit the information for Wisborough Green on or before Friday 28 February 2014. All of the Regulation 22 information has been completed and is ready to submit but a change in the availability of a drilling rig has resulted in the need to review the design of the development and any consequential impacts on the ES. It did not seem sensible to submit the Regulation 22 submission until the planning documents and design had been reviewed in parallel and this is the process we are currently undertaking internally which has caused the delay. These design changes might not result in any amendments to the Regulation 22 submission or the ES but we feel it would be practical to make the Regulation 22 submission after this review has taken place rather than making two separate submissions.

On this basis we are happy to agree to a revised determination date of 30 April 2014.

Jenny Massingham

Planning Advisor
