Allan,

Thank you for your email. Just to clarify, consultations were sent to both DECC and the HSE. My second email chasing for a response was also copied to HSE.

For applications such as this we current consult using the email address:

As discussed, I will ensure that all future consultations regarding hydrocarbon sites are copied to yourself.

If this is not the correct contact, please advise.

Kind regards,

James Neave

Morning James

Thanks for the e mail - I note that the initial correspondence was to Decc and not The Health and Safety Executive - we are two separate and independent regulators and you may still require a response from Decc

From a Well Operations aspect for the consultation we would conclude that -

That I have received the consultation documents for the Celtique Energie Weald Ltd, Boxal Bridge, Northup Field, Wisborough Green, West Sussex, RH14 0DD

HSE do not propose to comment on the application

Regards

Allan

Well Operations Inspector

Tony

For your information - This is an exploratory oil / gas well with a potential horizontal sidetrack. The well operator has stated that there will be no hydraulic stimulation.

Allan,

I have retrieved your contact details form the South Downs National Park Website in respect of comments you have made regarding a planning application for hydrocarbon exploration.

I am the case officer for a similar application, the full details of which are available on the West Sussex County Council website using the above reference number.

<http://www.westsussex.gov.uk/planningapplications>

Please see my previous email attached, I would be very grateful if you could provide me with a response, even if it is to advise you will not be making comments. Please do not hesitate to contact me should you wish to discuss further,

Many thanks in advance,

James Neave
