Dear Sir/Madam,

Neighbouring Authority Consultation

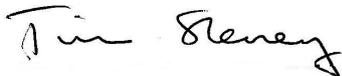

**Proposal: WEST SUSSEX COUNTY COUNCIL PLANNING CONSULTATION -
WSCC/035/17/SR - Amendment of conditions 3 and 4 of planning permission
WSCC/050/13/SR to allow retention of wellsite, including plant and equipment, to 2032
Address: Storrington Oilwell Site, Pulborough Road, Cootham, Storrington, West
Sussex, RH20 4HP**

Thank you for consulting the SDNPA as a neighbouring Authority on the above application. Following a review of the application documents, it is noted that there is no departure from existing methods of extraction proposed and that the proposal does not include any change to or intensification of the operations.

While the routing of HGVs has the potential for negative impacts on amenity and landscape, it is considered that the current number of HGV movements generated from the existing site is acceptable and the current application does not propose an increase to the permitted number of HGV movements.

As the application is for the continuation of existing hydrocarbon production and there are no additional wells to be drilled, we do not raise any objection to this proposal subject to the inclusion of adequate restoration conditions in any grant of planning permission in order to protect the setting of the South Downs National Park.

Yours faithfully

TIM SLANEY
Director of Planning
South Downs National Park Authority
