Dear Sir

Ref: WSEC/015/18/NH

I object most strongly to the plan by Britanniacrest, Plan to build an incinerator at Wealden Brickworks near Horsham, together with a monstrous 95m (300ft) chimney.

The location is totally out of keeping with this once beautiful area of Sussex which is suffering from overbuild and congestion at present.

Faygate, Crowley and Horley and all new build estates lie directly in the fall-out area from the plant with the prevailing West to South West winds driving waste completely over the area.

The idea is madness.

Yours sincerely
