Dear Sirs,

No to industrial incinerator - Horsham

I wish to object in the strongest terms to
the planning application for an industrial
incinerator in Horsham - planning ref -
WSSC/OIS/18/NH.

Whilst I appreciate the needs of a growing
population - not to mention the new housing
developments planned which we as residents
will ^{shortly} have to contend with - the resulting

2-

once all the new houses are built,
we should continue with recycling rather
than burning as this is not environmentally
friendly.

Please consider all the residents
views & I hope you will reconsider
these plans, as Horsham is not the
right area in which to site such a project.

Yours faithfully,
