COMMENTS & PROTEST AGAINST W SCC/OIS/18/NH

Dear Sirs

I cannot protest strongly enough regarding the above proposal, and cannot believe it is even being considered for this area, especially as it has been "rejected" elsewhere!

The Visual Impact is unacceptable but my main concern is emissions / noise.

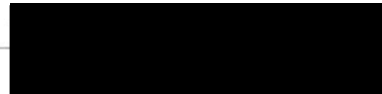

What protection do your residents have against noise / dust / odours - what will the effect be on the health & wellbeing of the people you are supposed to be serving?

It will also be close to our local nature reserve and what of the

traffic - our roads are congested
at the present level.

We have been "forced" to accept additional
housing - who is going to want to buy
a house in an area with pollution
HAS NO ONE ANY SENSE!

Yours Faithfully

MRS HJ HARDING.
