Dear Sir

I would like to register my objection to the proposal for Britan iarest incineration to be built on the site of the old brick works on Langhurst Wood Rd.

I feel we have enough environmental eyesores on our road and already suffer considerable nuisance from the heavy traffic that these sites generate.

However my main concern is 95m chimneys that is proposed. This high chimney is designed to widely disperse the effluent from the proposed furnaces. It will spread any contaminants wide over the neighbouring villages of Wanham, Rosser Capel and Faygate plus some of all of Horsham.

The fact that they want to burn industrial waste means that we have no idea of the toxic elements in the smoke. A real health hazard.

I think it is irresponsible to site such a facility next an area that is scheduled to have 2,700 homes, is at least 5,000 new inhabitants

Yours sincerely
