coleen robins	Boxgrove, England, UK	2017-05-02	my son and daughter-in-law and two granddaughters live very close to were they want to build it and I have serious concerns about what pollution will be going into the air it needs to be stopped
Emma Clarke	Worthing, England, UK	2017-05-02	It is far too tall to be placed here in this semi-rural area
caroline debansi	horsham, England, UK	2017-05-02	Personal profit for overseas owners should not come at the expense of our health and the beauty of our countryside
Susan Falvey	Horsham, England, UK	2017-05-03	We are very concerned about our son, daughter-in-law and two grandsons who live close to the proposed site end their health
Paul Falvey	Horsham, England, UK	2017-05-04	I do not want this incinerator built a short distance from my house This will affect everything about where we live and my children's childhood
Naomi Falvey	Horsham, England, UK	2017-05-04	I am concerned how this will affect the area I live in with this beign proposed a short distance from my house
Susan Falvey	Horsham, England, UK	2017-05-05	My son, his wife and two sons live very near to the proposed site and I am very concerned about what this will do to their health and the local environment It's a ridiculous proposal and has to be stopped
Patricia Murray	Nelspruit, South Africa	2017-05-05	I have serious concerns about the polution this incinerator will expose my family to, who live very nearby, let alone building such an unsightly monstrosity in such a beautiful countryside NO ON !!!!!
caroline debansi	horsham, England, UK	2017-05-09	It's ugly and it pumps noxious fumes into the air I breathe why? just so some rich guy who lives abroad can get richer
Sheila White	Horsham, England, UK	2017-05-26	This is clearly the wrong site for such a monstrosity It is even more unthinkable, now that permission has been given for at least 2,750 residences close by
David Munden	Horsham, England, UK	2017-05-26	The proposed incinerator the size of a small Power Station is totally in appropriate for the size of the site When all other industrial businesses have been discreetly landscaped into this rural area this proposal is just a hideous blot on the landscape that will be seen for miles in every direction If this monster is approved I can see this whole area becoming industrialised as rural land to the east has just had approval for 2.5k of housing, when will we ever learn !!!
Peter Burgess	Horsham, England, UK	2017-05-26	The building is obtrusive and far too big for a rural area

Name	Location	Date	Comment
Jacqui Birch	Warnham, England, UK	2017-05-28	This is totally unacceptable and will ruin our local countryside as well as threaten our health all because of profit ! This is not part of WSCC waste plan and I would question their motivation should this be granted
alison diver	Horsham, England, UK	2017-05-28	I oppose this build for many reasons -air pollution, traffic pollution, noise / visual impact The rds cannot handle the weight of traffic especially during rush hrs for commuting
Ian Bostock	Horsham, England, UK	2017-05-28	Horsham is a beautiful town and we do not need this polluting addition to our landscape
Debbie Hargreaves	Horsham, England, UK	2017-05-28	I do not support this application
Rhian Boast	Horsham, England, UK	2017-05-28	This is a fact There is sufficient capacity for incineration in the south east to take West Sussex waste - this therefore is unnecessary and undermines and negates the point of recycling In addition it will blight the countryside around Horsham which is already being radically changed by housing development
Rhian Boast	Horsham, England, UK	2017-05-28	This is a fact There is sufficient capacity for incineration in the south east to take West Sussex waste - this therefore is unnecessary and undermines and negates the point of recycling In addition it will blight the countryside around Horsham which is already being radically changed by housing development
Eleanor Wells	Horsham, England, UK	2017-05-28	I am opposed to an incinerator for many reasons Our roads can't cope with extra traffic, we should not be exposed to dangerous pollutants in the air and it will be a blight on our beautiful landscape
Dan Bean	Horsham, England, UK	2017-05-28	I don't want it in my town
Ollie Barron	Peacehaven, England, UK	2017-05-28	Cancer isn't good
David Gilbert	Horsham, England, UK	2017-05-28	The Horsham we all love is being blighted, for profit, by Biffa and Liberty Please sign this petition so we can stop the building of a carcinogenic incinerator
Owen Lewis	Faygate, England, UK	2017-05-28	Known Health risks
Caron Porritt	Horsham, England, UK	2017-05-28	I'm signing because this should not be built so close to new and existing homes where the road infrastructure cannot take it and the unknown health effects of toxins spewing into the atmosphere
Georgina Sterling	Crawley, England, UK	2017-05-29	There is already enough noise, smell and big lorries from what it is now We do not need to add to that, it's unfair on people who live close by It will be so big and ugly it will ruin Horsham

Name	Location	Date	Comment
Rebecca Johnston	Horsham, England, UK	2017-05-29	I don't think an incinerator would be appropriate for Horsham
Phil Barton	Upminster, England, UK	2017-05-29	I agree
Wendy Gilbert	Horsham, England, UK	2017-05-29	I'm totally against the incinerator for health reasons , traffic & why do we need it if we are recycling
Damian Carter	Horsham, England, UK	2017-05-29	I think its unnecessary and it poses a danger to health as well being an eyesore
Chris Jenkinson	Horsham, England, UK	2017-05-29	This is definately the wrong place It is very close to Horsham and has poor transport links How do we know this technology is safe It may kill us slowly over time and lead to deformed babies You can't say it won't because you do not know I hope Horsham District council are opposing this vigourously as it will be next to their new massive housing estate
William Sorrell	Warnham, England, UK	2017-05-29	The pollution will be a major health concern for children particularly and all local residents
Claire Pierce	Horsham, England, UK	2017-05-29	Health concerns
Tracy Francis	Horsham, West Sussex, England, UK	2017-05-30	Horsham is becoming a dumping area for waste from far and wide It is not needed and I would question the Councils motivation if they allow this monstrosity to be built so close to both existing homes and a new housing development
Shaun Beales	Horsham, England, UK	2017-05-30	I don't want it in horsham my kids health
Meghan Bates	Horsham, England, UK	2017-05-30	I am against the incinerator in Horsham
Michael Gaylard	Horsham, England, UK	2017-05-30	I feel that the height of the structures will prove too unsightly for the area
Dane Douetil CBE	Warnham, England, UK	2017-05-31	Oppose the building of the new incerator on grounds of noise, sight and toxic poolution plus oncrease in large vechiles on already buy country roads
Sarah Histed	Kingsfold, England, UK	2017-05-31	I don't want an incinerator in horsham
Samantha Meech	Horsham, England, UK	2017-05-31	I was born in Horsham a lovely Market town, which until 10 years ago was a beautiful place to live until the large housing developments taking all the countryside and moving too many people into this small Market town and now you want to build an incinerator to further blight what was a great place to live, enough is enough!!!!

Name	Location	Date	Comment
Chris Haynes	London, England, UK	2017-05-31	I care about the air pollution this would bring to the surrounding area, particularly worrying for nearby nurseries and schools
Gemma Wallis	Emsworth, England, UK	2017-05-31	It shouldn't be built
Rosemary Lane	Horsham, England, UK	2017-05-31	We have already an anaerobic digester
Richie Armour	Horsham, England, UK	2017-05-31	Gone are the days when wealthy industrialists ride roughshod over the peasants
Richie Armour	Horsham, England, UK	2017-05-31	Why oh why are we burning our resources? Recycling enables the re-use of natural products and man made compounds. This little globe of ours needs to support our grandchildren's grandchildren yet here we are burning their stuff
Adrian Muddin	Kingsfold, England, UK	2017-06-01	This will be a huge and unsightly building in an area of rural beauty. It will attract unacceptable numbers of very large waste lorries to roads that are already too busy and unsuitable. It is not a local solution to a local problem, rather it is industrialisation on an unacceptable and unwanted scale.
Liz Goddard	Horsham, England, UK	2017-06-01	<i>This is not good for horsham and is completely out of proportion to the locality and of what horsham needs. This is a pure capital gain venture and at the cost of residents within a large area.</i>
Alexander Carraro	Horsham, England, UK	2017-06-01	As a long time resident with a family plagued by both asthma and other health issues I really don't want anything that will exacerbate our conditions as close as this.
Roger Arthur	Storrington, England, UK	2017-06-01	<i>The Incinerator is close to many residential properties. It poses a health risk and would be a blot on the landscape, visible for miles around. There will be other alternative locations, which would NOT pose a health risk to so many residential properties and the incinerator should be at one of those.</i>
Anne Davies	Warnham, England, UK	2017-06-01	The size of proposed construction is massive and will have a significant visual, noise, environmental and health impact. Also it fails to comply with the West Sussex County Council's waste plan, failing on two strategic objectives and three policy undertakings.
Sarah Burling	Horsham, England, UK	2017-06-01	I objected last time and I have only seen further evidence that demonstrates this is not the right solution for dealing with our waste, this proposal is a disgrace.
Nicky Newton	Broadbridge heath, England, UK	2017-06-01	Strongly oppose the proposed incinerator in Horsham locale

Name	Location	Date	Comment
Gill Farmer	Horsham, England, UK	2017-06-02	As we move into a new Brexit era the possibility of non adherence to air pollution requirements becomes much more problematic. Our current government has postponed the report on air pollution in the capital ostensibly because of the election. How likely is a private company to adhere to the EU regulations when they are scheduled to be curtailed in the near future. Horsham has said no to handling much less toxic waste this is a definite NO for our town with all the hazards it would bring to the local communities.
Jan Sisson	Henfield, England, UK	2017-06-04	I have friends and family who live close by plus it was rejected before.
Susan Little	Horsham, England, UK	2017-06-06	Pollution from the chimneys and the trucks bring in the waste. Road damage from the trucks. People of Horsham have paid for alternative more ecological methods so why should we be subjected to having an incinerator we patently don't want or need?
Lin Willsher	Horsham, England, UK	2017-06-06	This incinerator is not the best place to site it. Too close to the community and lorries will bring waste from all over, causing more congestion and pollution. Bad siting for this incinerator. Please do not consent to this.
Jackie Nathalie	Horsham, England, UK	2017-06-06	I do not think the location of the proposed plans are fitting with the surrounding area. The height of it is shocking!!!
Nicola Leggatt	Horsham, England, UK	2017-06-07	The facility would pollute our town especially the immediate area with noise, toxins, smells and traffic. It needs to be away from any large residential area and with direct access from an A road.
Bel Ward	Warnham, England, UK	2017-06-08	I moved from the city for cleaner greener air, I do not want this on my doorstep. No more.
Tom Stanton	Horsham, England, UK	2017-06-14	Horsham doesn't need or want this. Build it somewhere else. Horsham doesn't need anymore development, and heavy industry like this is not welcome in a semi rural location like Horsham.
Tracy Coles	Horsham, England, UK	2017-06-15	Total impact on residents and the surrounding countryside would be terrible. This is not the legacy we want for our future and for Horsham.
Sandra Piggott	Horsham, England, UK	2017-06-16	A facility like this would be yet another "blot on the landscape" with very serious long term consequences for our communities, natural habitats and our health. Worst of all it is a commercial enterprise making huge profits. West Sussex County Council should heed the warnings!
Sally Eve	Southwater, England, UK	2017-06-16	I am fed up with the damage done in the name of progress to our local environment.
Kayleigh Hand	Crawley, England, UK	2017-06-17	It would ruin the aesthetic and appeal of the surrounding area.

Name	Location	Date	Comment
Hannah Debansi	Warnham, England, UK	2017-06-17	We've lived here for years, this incinerator will be a ridiculous eye sore immediately behind our houses and will disrupt our every day lives, with its smells and the traffic it will bring as other towns being their rubbish here No thank you
Zoe Humphreys	Horsham, England, UK	2017-06-17	I don't want a giant, disgusting incinerator anywhere near my friends and family'
Tom Osborne	Crawley, England, UK	2017-06-17	This would be a horrific idea
Philip Naylor	Horsham, England, UK	2017-06-18	The proposed development is not proportional to the requirement and will unduly impact not only those living close by now but also those who will live in the proposed North Horsham development
Julie Pickett	Ewhurst, England, UK	2017-06-19	We already have multiple chimneys around this area and as an area of outstanding beauty another such structure would be a blot on the landscape, also numerous new housing estates have been built and are about to be built we do not need fumes being discharged into the local environment with young and elderly residents being effected We already have the airport locally with jet fuel immisions etc I feel waste reduction is the way forward and recyclable items along with reduced packaging We are entering an era of reduced emissions, not increased I bought a diesel car on the premiss that it was environmentally better only to be now told it may not be and charged for the use I very much doubt the future is the burning of waste either and in a few years time there may well be a change in policy and we will be left with a redundant eyesaw
Philip Benbow	Manchester, England, UK	2017-06-20	This project makes no sense It is not for local refuse This project will add to the carbon footprint of every piece of refuse delivered for the life of the project
Elizabeth Martin	Horsham, England, UK	2017-06-20	I am Asthmatic
Stephen Watts	Horsham, England, UK	2017-06-20	The prospect of this incinerator is too awful to contemplate'
C Pierce	Loxwood, England, UK	2017-06-20	The application is incomplete Don't let WSCC make another Crouchland Biogas Limited mistake
Sue Allford	Barns Green, England, UK	2017-06-20	To stop HDC ruining this beautiful part of the country
Paul Wingham	Horsham, England, UK	2017-06-22	We don't want an incinerator causing nasty smells near our house
Ronald Jewett	Broadbridge Heath, England, UK	2017-06-22	I am signing to object because of the serious impact such an incinerator will have on my local environment, namely toxic gases, ash deposits and other contaminants According to the EU Waste Directive 2008/98/EC this type of incinerator

Name	Location	Date	Comment
			will not achieve the necessary electrical output that would legally entitle it to be located in Horsham
Harmer Tracey	Broadbridge Heath, England, UK	2017-06-23	No, No, NO! Is that clear enough!
David Griffin	Hosham, England, UK	2017-06-23	There is so much new residential development proposed and underway nearby that this incinerator is completely wrong!
CATHERINE CHANDLER	Warnham, England, UK	2017-06-23	Not suitable in such close proximity to hundreds of homes <i>where children live and should be allowed to grow up and be protected</i>
mick baylis	horsham, England, UK	2017-06-23	Horsham doesn't need other peoples waste, we have enough of our own to deal with
Colin Wells	Horsham, England, UK	2017-06-23	Its detrimental to the area and will have an undesirable visual impact
Vic Saunders	Horsham, England, UK	2017-06-24	I want clean Air for Horsham
Corrado Montoneri	Cleveleys, UK	2017-06-24	I'm signing because I want to avoid further environmental pollution detrimental to local human and animal health, and avoid visual impact which will be detrimental to the property values in Horsham and surrounding areas
Mark Harwood	Weybridge, England, UK	2017-06-24	I'm deeply against an incinerator in Horsham
Lisa Charles	Horsham, England, UK	2017-06-24	We live in horsham and do not want additional pollution issues. Given the development plans here don't you think that's enough? Why don't you use this land for new homes rather than take our countryside!"
laura crosbie	Brighton, England, UK	2017-06-24	our toen has had enough !
William Mullen	London, UK	2017-06-24	Incinerator in completely the wrong place, doing the wrong job
Rob Skinner	Horsham, England, UK	2017-06-24	Apart from being an environmental nightmare with huge health consequences, it will also be a blight on the beautiful Sussex landscape
Jonathan Short	Vero Beach, Florida, US	2017-06-25	Not enough info has been distributed regarding the justification of the incinerator site and why alternatives were rejected
Carol Barnes	Horsham, England, UK	2017-06-25	Too near resident's houses and giving us bad air quality Needs to be away from built up areas

Name	Location	Date	Comment
Deryck Thomson	London, UK	2017-06-25	I do not think it is safe to build an incinerator that close to houses, schools, Gatwick Airport, who knows what will be burnt there and polute the local area''''
janet goodwin	Crawley, England, UK	2017-06-25	<i>I'm signing because I live in Tilgate don't want bad smells which we have had in the past</i>
Tito Sacchi	Horsham, England, UK	2017-06-25	I am signing because I care about the environment where me and my family are growing up
Pamela Burbidge	Horsham, England, UK	2017-06-26	I care about Horsham & the environment With so many new houses being built(latest plans) how could anyone consider bringing large quantities of refuse to burn near so many people's homes Unthinkable & unreasonable If the Council cares about Horsham & its residents this idea should be scrapped as soon as possible With so much unrest in this country it is time for Councils to care about people, not force unwanted harmful measures on such a wonderful community as we are in Horsnam
David Woollett	Horsham, England, UK	2017-06-26	We voted against incinerators It is NOT a green way to deal with waste'
Steve Swain	Horsham, England, UK	2017-06-26	If this goes ahead our landscape and environment will be spoilt for ever This is not the right place to have an incinerator in such a lovely market town, just to benefit shareholders of a private company
Jennifer Turner	Crowborough, England, UK	2017-06-26	Will be a blot on the environment
Julie Hunt	London, UK	2017-06-26	Toxic fumes and only having incinerator for profit
Phil Carless	Stoke-on-Trent, UK	2017-06-26	I work next to it if it gets the go ahead ''''''
Diana Crompton	Horsham, England, UK	2017-06-26	This is not a suitable area for an incinerator, the proposed site is too close to residential habitation and would be noisy and smelly
Alison Kirke	Horsham, England, UK	2017-06-26	Air pollution from toxic fumes and extra traffic, noise and the disturbance to the environment in Horsham-why? So that profits can be made by burning rubbish from other parts of the country This is bonkers'
Ann Marchant	Horsham, England, UK	2017-06-26	<i>It's outrageous that this should be built Amongst other reasons, the toxic fumes will threaten the health of the surrounding population</i>
Gemma Harrison	Horsham, England, UK	2017-06-26	There's enough toxins in our air already
Victoria Harvey	Horsham, England, UK	2017-06-26	No incinerator! You can't build 4000 expensive homes and then pollute everyone! Open a bigger recycling center!

Name	Location	Date	Comment
Jodie Pearce	Warnham, England, UK	2017-06-26	I'm signing because this cannot go ahead I want to ensure clean, safe air for my two young children Please, please, please do not allow this to go ahead
Christine Weston	Horsham, England, UK	2017-06-26	I am signing because I want to prevent toxins in the atmosphere causing cancer in young and innocent people especially as Horsham is planning to construct more homes along the north of the A264
Lilian Gillett	Crawley, England, UK	2017-06-26	I am signing this petition because the last thing we need is something that will pollute the air in Horsham and the surrounding area It is bad enough that fracking has been allowed without this menace to our health being given the go ahead
David Garner	Horsham, England, UK	2017-06-26	There are enough smells already from the landfill site without more from this monster plant - resident of North Horsham
Louise Hulmes	Horsham, England, UK	2017-06-26	Because why the hell should beautiful historic Horsham be the dumping ground of the South East? We're already over developed P155 off
Simon Matterface	Warnham, England, UK	2017-06-26	I live about 500 metres away from the proposed site and will have a clear view of it, day and night It is too close to residential areas and will pollute the air that everyone in this area breathes
Emma Cole	Horsham, England, UK	2017-06-26	Don't want this near my home
Tim Peters	Broadbridge Heath, England, UK	2017-06-27	The emissions from this incinerator will negatively impact on the health of residents in Horsham, Broadbridge Heath, Warnham and the surrounding area
Victoria Lowe	Horsham, England, UK	2017-06-27	It's will affect where i live and the air is already polluted with the human waste center on duals it's disgusting u have already cut out our days we can use dump to save money looks t this one shame on u ruining a lovely town u can't recognise it anymore When will u stop when Horsham not one of the best places to live as i can tell this will mess the air up also my children will be breathing it in would you be happy breathing it in or donut not live in Horsham so therefore won't be affect absolute disgrace soo up set what shame to be built in Horsham disgracefull
Mike Flower	Horsham, England, UK	2017-06-27	Horsham has already done its bit for waste management in taking on a large waste management facility and landfill sites This is not a suitable site for many reasons - including too close to a large planned expansion of residential facilities, insufficient infrastructure for handling the large amount of extra traffic (especially with the A264 from the east being turned into a slower road when the new homes at built in north Horsham) and probably not adequately central within the area it would serve Is there no fully

Name	Location	Date	Comment
			industrialised zone in central southern England where this can be sited?
Teresa McEwan	Horsham, England, UK	2017-06-27	I have two young children and am concerned about how far the toxins could potentially travel
Chris Sinden	Horsham, England, UK	2017-06-27	I oppose any more air pollution in Horsham, it's bad enough currently with the aircraft pollution and the increasing traffic pollution
Jane Smith	Kingsfold, England, UK	2017-06-27	This proposed incinerator is in the wrong place. It does not comply with Objective 5 of West Sussex waste plan
Eileen Boud	Warnham, England, UK	2017-06-27	I have severe asthma and am very concerned as to how the <i>proposed incinerator will affect my health</i> . I already take high doses of steroids and antibiotics so seriously worry that my life would be endangered
Peter Flesher	Horsham, England, UK	2017-06-27	Policy W13
Samantha Warner	East Grinstead, England, UK	2017-06-27	I fear for the safety and health of the the children in West Sussex
Angela Barry	London, UK	2017-06-27	My daughter and 2 grandsons live close to the area why should they be at risk
Nicolas WATERS WATERS	Haworth, England, UK	2017-06-27	We in Keighley are in the middle of a parallel scenario BRADFORD has attempted to impose a regional 'Waste to Energy' Incinerator with 200 foot fume stack on our town of over 50k residents residing at the bottom of an already polluted transport corridor - The Aire Valley. We lose at every stage, now left hoping our new MP can fight back with a Judicial Review'
Adrian Appley	Bromley, England, UK	2017-06-27	NO incinerator for Horsham
Ray Shaw	Horsham, England, UK	2017-06-28	I am signing for many reasons not least of which is because the proposal does not comply with Objective 5 Section 5.3 and Objective 14
michael cornell	Kingsfold, England, UK	2017-06-28	I am signing with the objection to the proposed site of the <i>incinerator</i>
Hazel Munro	Cranleigh, England, UK	2017-06-28	I'm signing because I visit this area many times each week to visit my family and shop
natasha mackins	Horsham, England, UK	2017-06-28	I do not wish my children to grow up with this
Michael Davis	Horsham, England, UK	2017-06-29	It will emit toxic fumes
Eileen Davis	Horsham, England, UK	2017-06-29	Concerned about air pollution

Name	Location	Date	Comment
James Mitchell	Kingsfold, England, UK	2017-06-29	Rejection reasons West Sussex waste plan - Objective 5 proposal DOES NOT COMPLYObjective 14 - moves against objective with emissionsPolicy W11 - proposal impacts existing character in proposed area Does NOT agree with County Council planEU Waste Framework Directive 2008/98/EC - proposed facility does NOT comply with the proximity principle directiveWest Sussex County Council needs to reject this proposal based on agreed facts that it and the EU (including UK) signed up to!
James Mitchell	Kingsfold, England, UK	2017-06-29	Helen - I am a member of the Kingsfold Resident Association Can you please make contact with us /me - email - Kingsfold_res_assoc@gmail.com Keen to help on this matter and other issues Thanks James
H Clarke	Horsham, England, UK	2017-06-29	Hi James, Thanks for your message Can you please resend your email address, don't think the one above works (perhaps I'm typing it in wrong) or email ni4h @btinternet.com All the bestHelen
H Clarke	Horsham, England, UK	2017-06-29	Hi NicholasWe have been following your fight on Twitter and I signed your petition some weeks ago I wholeheartedly encourage our supporters to sign the Aire Valley anti-incineration petition on Change.org Regarding the Judicial review, here's hoping good sense prevails! Very best wishesHelen
Jo Parry	hotsham, England, UK	2017-06-29	I dont want noxious plume over not just my home but over local playing fields and school fields
Kevin Bacon	Warnham, England, UK	2017-06-29	I'm signing because people will suffer the pollution for years, and only when time has lapsed will we look back and say, "How did this ever get approval, and who voted to approve it"
Wendy Patterson	Broadbridge Heath, England, UK	2017-06-30	I am a chronic Asthmatic, and anysmoke/fumes from any source canaffect my breathing
Wendy Venn	Horsham, England, UK	2017-06-30	Horsham has done more than enough in handling waste - no more!!! Time for another district to help with waste management
Thomas Matthews	Horsham, England, UK	2017-07-01	It won't be healthy for the future generations
Rachel Venn	Newbury, England, UK	2017-07-01	We have had to tolerate tens of thousands of new homes being built, already destroying the countryside - let's not now pollute those tens of thousands of new residents!!!!
Fiona Richardson	Horsham, England, UK	2017-07-02	The incinerator would conflict with the character of the surrounding area, which is NOT industrial, whatever the developer states in their plans Importing rubbish from outside the area is not ecologically sound and is against stated council policy

Name	Location	Date	Comment
Ella Jonkman	Rhostyllen, Wales, Cymru, UK	2017-07-03	I see first hand what an ugly blot on the landscape an incinerator is every time I pass one outside Chester I pity the poor residents who live there who have to look at it everyday
Chloe Bleach	London, UK	2017-07-03	I am signing because this is disgraceful we have saud no and we dont want it keep our families safe we don't need toxic fumes polluting the air"
emma barry	crawley, England, UK	2017-07-03	The toxicity will be bad for the local environment There's is already far too much air pollution in the area with its close proximity to Gatwick Airport
Samantha Barrt	Crawley, England, UK	2017-07-03	It should not be built in such a residential area! Financial and health implications to locals have not been considered
Geoffrey Charles	Horsham, England, UK	2017-07-04	I have seen the incinerator facility at Tynsley and with the noise, height of the buildings 20m, and continous beige coloured dust emitting from the chimney, 25m leaving everything in the surrounding area coverd in poisonous dust
Anthony Bailey	Horsham, England, UK	2017-07-04	We don't need more air pollution in Horsham
Bridget Bailey	Horsham, England, UK	2017-07-06	Really worried about the effect this project would have on my health
Alexia Rowley	London, England, UK	2017-07-06	I don't want my children to breathe in polluted air!!! I moved to horsham for a better life for my children
Janet Large	Crawley, England, UK	2017-07-06	It will affect everyone local and my eldely mother in law lives in north Horsham
denise bishop	Haywards Heath, England, UK	2017-07-06	Its going to kill people
Emma Barnard	Faygate, England, UK	2017-07-06	Because air quality would be compromised
Laura Martlew	Horsham, England, UK	2017-07-06	<i>I'm concerned on the impact to my children's health</i> Infant mortality rates are higher where children live near incinerators
Steve Wells	Horsham, England, UK	2017-07-06	As a resident of North Horsham I want to preserve the beauty of this area I do not want it blighted by the eyesore which will be an incinerator and chimney and the pollutants produced by the facility Furthermore I am not in favour of this private company using Horsham as a base for managing waste from outside of the local area Let them go to deal with their waste in their own back yard
Elizabeth Sutton	Horsham, England, UK	2017-07-06	It is an inappropriate site for this Surely a better one could be found

Name	Location	Date	Comment
Philip smith	Horsham, England, UK	2017-07-06	Recycling must be the answer
Jacqueline Twiddy	Southwater, England, UK	2017-07-06	We have enough building in horsham
Deborah lighter	Horsham, England, UK	2017-07-06	I do not want air pollution that an incinerator would create, or the increased traffic It would make a nice market town into an industrial zone
mary Cummins	London, England, UK	2017-07-06	I moved to Horsham 2years ago because it was a cleaner environment to live
Lesley Cooper	Crawley, England, UK	2017-07-06	Unnecessary pollution
Chris Carlisle	Birmingham, England, UK	2017-07-06	I live close enough to this site to be directly effected by the pollution, of which my wife and children will also be affected
Jon Durward	Redhill, UK	2017-07-06	My wife, three young children and I live directly to the south of where this monstrosity is proposed I am livid about the plans The North Horsham development is one thing but this is altogether something else
Tim Reed	Bristol, England, UK	2017-07-06	It's bad and shouldn't be happening! Terrible way to get rid of waste!
Jacky Doak	Warnham, England, UK	2017-07-06	I live close by and don't want my health affected or to have to deal with the smell
Anita Skilton	Broadbridge Heath, England, UK	2017-07-06	I don't want an incinerator blighting our landscape and polluting the local environment
Josh Ryley	Horsham, England, UK	2017-07-06	Clean air is important and there are more responsible ways to deal with waste
Carolyn Laurenson	Broadbridge Heath, England, UK	2017-07-06	We have too much development here as it is ruining the greenbelt We on't need any more!
Will Gray	Middlesbrough, UK	2017-07-06	This is a rural area
David Poynter	Horsham, England, UK	2017-07-06	This is not a suitable area for this sort of development Especially now the north Horsham housing development has been authorised
Sandra Czaban	West Sussex, England, UK	2017-07-06	An incinerator In this area will increase heavy traffic on the A264, there will also be increased traffic due to the approval of housing opposite the Rusper Road roundabout Emissions will also be increased adding to the traffic pollution The recycling plant they have is a fiasco and doesn't work or get used efficiently, what makes you think an incinerator will be any different?

Stefano Oliva	Horsham, England, UK	2017-07-06	We need to preserve Horsham for our children
Charlene Kelly	Horsham, England, UK	2017-07-06	I do not want the building built at all
Jenny Caporalini	Horsham, England, UK	2017-07-06	To stop the pollution
Kelly Gray	Horsham, England, UK	2017-07-06	I do not want the toxins it would generate in our town!
olga prudits	Horsham, England, UK	2017-07-06	Fear of pollution
Laura benevenia	Southwater, England, UK	2017-07-06	I say no
Lucy gibson-ebsworth	London, England, UK	2017-07-06	I don't want my home destroyed
Shahinaz Stoner	Leicester, UK	2017-07-06	There is not enough evidence to prove it's not at all harmless there is plenty of other land just outside of Horsham that don't have many houses at all Horsham is so small and is getting built up to much with all these thousand upon thousand houses being built the roads are too busy now and not all the houses have been filled up let alone all built yet the roads will not cope with all the truck loads of rubbish from not just Horsham but now the whole of West Sussex why Horsham there is plenty of other place and once that don't involve as many houses being on its doorstep or 2 school that are a 1 minute drive away from it
Abi Ransome	Newdigate, England, UK	2017-07-06	We have young children who we want to do our best for which means looking after their health This will also be an eyesore!!
Susan Sturt	Broadbridge Heath, England, UK	2017-07-06	I am signing because we don't want industrial waste from elsewhere burned so close to existing houses causing pollution and traffic congestion
Joanne Graysmark	Horsham, England, UK	2017-07-06	I don't want to live in a more heavily polluted area We also have the threat of the 2nd runway at Gatwick We are tarmacing the countryside at an alarming rate An incinerator will pollute what little countryside we have left and have a massive impact on the wildlife This is not the right place for an incinerator not now not ever The environmental impact would be horrific The flora and fauna would be irrevocably damaged
Jemma Notley	Horsham, England, UK	2017-07-06	I don't want to see Horsham ruined any further with developments Our countryside and town should be protected for future generations
amanda dackombe	Horsham, England, UK	2017-07-06	I believe the incinerator will be an eye sore standing out in the beautiful countryside I also have concerns for the health

Name	Location	Date	Comment
			of myself, family and children over the levels of toxins that will fill the air and therefore our lungs!
Sue Horne	Horsham, England, UK	2017-07-06	It's completely ludicrous and ethically wrong!
Mark Jones	Findon, England, UK	2017-07-07	I don't want it in Horsham
Jane Atchison	Bristol, England, UK	2017-07-07	Incineration is very bad for the environment and peoples' health, and also very wasteful as practically everything can be recycled or reused somehow Watch the excellent documentary "Trashed" for a full explanation of why it is so harmful.
Samantha Morse	Horsham, England, UK	2017-07-07	I do not want an incinerator in Horsham
Jessica Tenk	Horsham, England, UK	2017-07-07	Horsham should not suffer for a companies financial gain!
anna walton	London, England, UK	2017-07-07	The incinerator will release large amounts of dangerous pollution in a highly residential area, especially given the recent go ahead for the North Horshsm development
H Clarke	Horsham, England, UK	2017-07-07	Sounds like your mother-in-law lives very close to the site, and it is not just Horsham residents that will be impacted Plume prediction models show the fumes will reach Crawley The prevailing winds head your way Janet Thank you for signing
Charlotte Hatcher	Horsham, England, UK	2017-07-07	This is a poorly-conceived plan from an environmental and health and safety perspective, and offers no economic gain for local people or Horsham's economy This is purely about a private company increasing their profits, to the detriment of all those living in the vicinity
Peter Hellyer	Horsham, England, UK	2017-07-07	The proposal is completely inappropriate gives its location adjacent to an increasingly densely populated are
H Clarke	Horsham, England, UK	2017-07-07	Thanks for signing Anna Your signature makes a real difference Please help us by sharing the petition with your friends, family and neighbours The decision will be made on 18th July and we need every bit of support we can get to stop the Horsham Incinerator With very best wishesHelen

Katrin Munro	Barry, Wales, Cymru, UK	2017-10-05	Incinerators are false economy
Leon Robertson	Barry, Wales, Cymru, UK	2017-10-05	We need governmental policy change, don't incinerate our future
Julia Brunskill	Barry, Wales, Cymru, UK	2017-10-05	we are enduring a similar fight in Barry Good luck everyone I hope you stop this health risk
Hannah Milker	Southwater, England, UK	2017-11-10	Don't want an eyesore of a building and damage to our local environment
Kim O'Dell	Warnham, England, UK	2017-11-10	I live within 200m of this proposed monstrosity I cannot believe HDC would even consider such plans when it will have a significant impact on our environment and will be a complete eyesore in a beautiful area Shame on you HDC
David Milner	Horsham, England, UK	2017-11-10	I don't want an incinerator in Horsham
Tracey Hardy	Ockley, England, UK	2017-11-19	This isn't needed in the area & will pose a threat to the health of people living in the vicinity & surrounding wildlife
Cerian Adams-Stephens	Wellingborough, England, UK	2017-11-19	I lived near Horsham for a number of years and have friends in the area too This would be horrible in such a beautiful

Name	Location	Date	Comment
			area Another more environmentally friendly alternative would be far better!!!!
alison diver	Horsham, England, UK	2018-01-26	It's the wrong site It sits near residential properties and will have a health impact
Peter Hillman	Horsham, England, UK	2018-01-27	With the impending large scale North Horsham development it is clearly not the right place for such a facility
Peter Reeve	Horsham, England, UK	2018-01-27	I want a clean Horsham for my children
Lin Willsher	Horsham, England, UK	2018-01-27	The proposed incinerator is far too close to residential areas, will possibly impact on people's health and also add more traffic to local roads, ie lorries mainly bringing waste I'm told it will not only be local waste but shipped down from other parts of the country If the wind is in the wrong direction will again impact on residential areas This company tried to get it approved recently! Please help to stop this happening by signing the petition
Andrea Cooper	Horsham, England, UK	2018-01-27	Just no We are rapidly becoming urbanised, and this is close to new residential affordable housing with young families We as a town have already addressed local waste issues with existing plants and landfill This will be a visual eyesore and a major pollutant No! Lase it somewhere remote and rural
Vivien nicholls	Horsham, England, UK	2018-01-27	I'm very concerned about the environmental impact, and air quality issues - especially with the new development going in on to the North of the bypass - that's even more houses to be affected I feel this second propasal has been brought about in a very underhand way, with too little time allowed for proper consultation
David Potter	London, UK	2018-01-28	If ash from Volcanoes gets pumped miles high into the air, and still manages to land on the ground I'm sure the pollution from this chimney will do the same I'm sure the pollution from this chimney will do the same Also moisture and rain brings it all back to ground No way, no thanks, find a better way!
jacky tee	Horsham, England, UK	2018-01-28	I want my children and grandchildren to breathe clean air
Pat Povey	Crowborough, England, UK	2018-01-31	P
H Clarke	Horsham, England, UK	2018-03-19	Thanks for your advice Janice I know Jeremy Irons has an interest in this subject matter, I just don't know how to reach him!
Anya King	Headley, England, UK	2018-03-26	It is disruptive, too close to dwellings, unsightly, will cause increased industrial traffic in the area - and a health risk
Alex Longhurst	Horsham, England, UK	2018-03-26	We should be building recycling plants no incinerators

Name	Location	Date	Comment
Rebecca Maslin	Horsham, England, UK	2018-03-26	So the Government want to reduce incineration and increase recycling This is a plan to support the past, rather than improve the future
Deborah Hammond	Horsham, England, UK	2018-03-28	Objection to potential noise, light and toxins and the aesthetic disruption in this rural area of a vast chimney, which will be visible for many miles in this rural landscape This site already has a vast state of the art recycling plant, so surely this incinerator is not required here and residents do not want it
H Clarke	Horsham, England, UK	2018-04-02	Thanks for signing the petition Deborah I hope you will also consider sending your objection to the council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH

Name	Location	Date	Comment
Tracy Morrison	Horsham, England, UK	2018-04-02	This is just too close to housing and not acceptable
Cherry Parsons	Horsham, England, UK	2018-04-02	I am signing because as an asthmatic, with children and grandchildren that suffer from bronchial issues, the last thing we need is more pollutants being spewed into our local environment. This application applies to a central plot, within the valley of the Weald, where air stagnates and remains - particularly in humid weather. The size of this build will be an eyesore of a magnitude hitherto unknown in this area. The surrounding roads are not designed for high levels of heavy commercial traffic and we should not be putting this kind of project near to residential areas. Horsham was a beautiful town that has been overdeveloped and spoilt by short term, bad planning decisions in recent history - as it's heart and core has been sold off to the highest bidder making the loudest noise. Where are they now? Don't wreck what little rural beauty we have left!
Sheila Poynter	Hove, UK	2018-04-03	We already experience from time to time, smells from the tip in Langhurstwood Road and certainly do not want increased pollution from this incineration plant. It will be unsightly and not welcome in the lovely town we live in. I'm sure the proposed new north developments don't want it either, and equally I will not be happy about the increased traffic this will create, also causing pollution, that will pass through the road I live in. However, this development has been approved against the wishes of many residents but sincerely hope that this application gets the Refusal it deserves.
H Clarke	Horsham, England, UK	2018-04-03	I hope you will also consider sending your objection to the council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH.
H Clarke	Horsham, England, UK	2018-04-03	Thanks for signing my petition. I hope you will also consider sending your objection to the council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH.
H Clarke	Horsham, England, UK	2018-04-03	Thanks for signing my petition Sheila. I hope you will also consider sending your objection to the council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH.
Carol Trowbridge	Newcastle Upon Tyne, UK	2018-04-04	It is too near housing and I will be sending an objection to the plan to the council.
Graeme Brown	Horsham, England, UK	2018-04-04	It's horrendous and should not be in our local area.
George Sallows	Rusper, England, UK	2018-04-06	Waste management should be a local issue, with all communities taking responsibility for their own waste. Not huge plants like this creating air pollution and adding to global warming.

Name	Location	Date	Comment
Vic Saunders	Horsham, England, UK	2018-04-06	Trucking commercial waste throughout Surrey and Sussex to burn in Horsham is insane When we should be planning to recycling and looking for solutions to reduce waste in the future
Robert Simmonds	Horsham, England, UK	2018-04-08	Why would anybody agree to this polluting eyesore, what do Liberty think of it, who will buy a house on the proposed N Horsham development?
Sophie Toogood	Horsham, England, UK	2018-04-09	As a resident of Horsham I don't think this eye sore is necessary and will create harmful noxious gases to locals
H Clarke	Horsham, England, UK	2018-04-09	Thanks for signing my petition Sophie I hope you will also consider sending your objection to the council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH

Rachel Gibbons	Horsham, UK	2018-04-13	I'm signing mainly because the way forward is not about burning rubbish, it's about reducing, reusing and recycling. Also, it could impact negatively on people's health and the local environment (e.g. Warnham Nature Reserve) could suffer. If you must build this, build it somewhere else that makes more sense!
H Clarke	Horsham, England, UK	2018-04-13	Thanks for signing my petition I hope you will also send your objection to the council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH
Ian Thomas	Horsham, England, UK	2018-04-15	In an area as populated as Horsham, with Gatwick in close proximity, whom in their right mind would seriously consider adding more pollutants to the air we all breathe? Let's hope our council will reject this application but history would suggest they are not very good at doing what is best for the people of Horsham!
Jackie Nathalie	Horsham, England, UK	2018-04-16	Why Horsham? I am so concerned about the toxic fumes, I struggle to breathe with my asthma. The air pollution will be just awful! Never mind the appearance of such an ugly thing!!!!
Laura Davies	UK	2018-04-16	No incinerator for Horsham, it's proposed site is too close to family homes & schools. It's toxic fumes would be harmful and cause multiple health problems. It would also be an eyesore on our beautiful landscape.
Sally Aquilina	Horsham, England, UK	2018-04-17	Totally the wrong place. Horrible implications for all around the area.
Tom Stanton	Horsham, England, UK	2018-04-17	North Horsham is overdeveloped already, and with the growing population this is the wrong place to put such a plant.
Alfredo Aquilina	Horsham, England, UK	2018-04-17	Don't destroy Horsham.
Sergio Bebianio	US	2018-04-17	Feel that the incinerator does not bring any benefits to the area. Actually it can only do the opposite.

Name	Location	Date	Comment
Alex O'Dell	Crawley, England, UK	2018-04-18	Other than the disgusting pollution when did burning rubbish in 2018 become a sustainable solution Where did recycling go?

Kay Pollen	Horsham, England, UK	2018-04-20	Will do!
alison diver	Horsham, England, UK	2018-04-20	Absolutely the wrong site Too near homes
Pat Burgess	Bourne, England, UK	2018-04-20	It's disgusting It is not safe and why don't you put it in a rural area where there are less people
daniel stevens	Horsham, England, UK	2018-04-20	There is no need for our rubbish to be burned so close to a large populated area

Name	Location	Date	Comment
Felicity Tanous	Hassocks, England, UK	2018-04-20	No incinerator needed - they emit dangerous toxins Try anaerobic digesters and reducing food waste
Diane Evans	UK	2018-04-20	The thought of an incinerator on my doorstep with a young family is frightening!
Ophélie Chauveau	Broadbridge Heath, England, UK	2018-04-21	We need more schools, doctor & dentist surgeries that help people not an incinerator that pollutes the air our children breath We just moved to Horsham from North Surrey for a better quality of life and less air polution We wouldn't have moved here if we knew there was going to be an horrible incinerator built on our doorstep
Hayley Peacock	Rusper Rd, Horsham, West Sussex UK, England, UK	2018-04-21	I am concerned about the impact of toxins on Horsham families
Charlotte Bannister	Horsham, England, UK	2018-04-21	This will completely ruin the feel of Horsham
Zoe Jeanes	Horsham, England, UK	2018-04-21	Horsham residents don't want an incinerator!!!
Jean newton	Horsham, England, UK	2018-04-21	No no no!
Laila Brown	Horsham, England, UK	2018-04-21	This incinerator is not needed at this site It is the wrong place for it to be planned for
tony eakins	Horsham, England, UK	2018-04-21	We don't want waste burnt in our area There are other solutions and they should be used
Lisa Slater	Horsham, England, UK	2018-04-21	Horsham council you've destroyed enough of our Greenbelt land please stop nobody want this #
Kirsty Sommerford	Horsham, England, UK	2018-04-21	I have children!
Ann Nandi	Horsham, England, UK	2018-04-21	Unknown long term effectsDon't see why it needs to be In residential/potential school area
Simone Roffe	Warnham, England, UK	2018-04-21	This is completely the wrong site for such a huge incinerator It would be a disaster if planning is granted for Horshsm district and it's residents
Lavinia Robson	Twyford, England, UK	2018-04-21	There's no place for pollution in our towns affecting people's health and adding to the dire climate change
nicola birchenall	Epsom, England, UK	2018-04-22	Please please can everyone just take a mess than a minute to sign
PAat Borrett	Paignton, England, UK	2018-04-22	No way should an incinerator spoil the history and beauty that is Horsham

Name	Location	Date	Comment
Emily Keating	Horsham, England, UK	2018-04-22	We don't want any more air pollution
Jamie Nash	UK	2018-04-22	Horsham of all places! Are you mad? Who's stupid idea is this? Stick the incinerater in the sea with the wind turbines. You can then have turbines to power it and no countryside will be effected!
Peter Nash	Banstead, England, UK	2018-04-22	This will totally change the environment in a beautiful part of West Sussex
Georgina Mason	Horsham, England, UK	2018-04-22	I'm signing because it's a travesty that this is even being considered
Jacque Roffe	Hove, England, UK	2018-04-22	There is no justification for this development other than greed and profit at the expense of the local environment and possible negative health impact on nearby residents
Willow anastasiades	brighton, England, UK	2018-04-22	We should be doing everything we can to protect our environment not damage it further Structures such as this should not be built
Caron Porritt	Horsham, England, UK	2018-04-22	I'm signing because it is an abhorrent idea to be burning waste 24/7 in a residential area so close to Gatwick airport The mixture of toxins from aircraft and the incinerator makes for such unclean air for residents to breathe Recent studies show the effects of pollutant toxins on teenage girl menstrual cycles is disruptive With a school planned immediately below the incinerator and others in the vicinity I cannot believe the Council want on their conscience the risk to health this installation brings And that's not to mention the increased issues pollution brings to local asthma sufferers Please see sense and say no
H Clarke	Horsham, England, UK	2018-04-22	Thanks for signing my petition I hope you will also send your objection to the council at planning applications@westsussex.gov.uk stating reference WSCC/015/18/NH

Steven de la nougerede	Bettws, Wales, Cymru, UK	2018-04-22	Burning waste and increasing the carbon footprint and putting more pollutants in to the air we breathe is not the answer to the councils failure to meet landfill or recycling targets
alison grigson	Potterspurty, England, UK	2018-04-22	No incinerator please

Name	Location	Date	Comment
Kayleigh Hand	Crawley, England, UK	2018-04-22	It is a terrible location for this kind of structure. If it must be built, do it somewhere it's not going to impact people in their homes!
Julia Bayliss	Horsham, England, UK	2018-04-22	I value the area I live in and the health of those I love
cara craddock-smith	altrincham, England, UK	2018-04-23	We shouldn't be burning and polluting, we should be recycling and protecting our world for our children and future generations!!!!!!
Lindsey Burnell	Carshalton, England, UK	2018-04-23	I don't want an incinerator in Horsham
Debbie Hargreaves	Horsham, England, UK	2018-04-23	I am a resident of North Horsham and living here we are already affected by the smells emitted from the landfill site. I object to this proposal that will have such a negative impact on our health and environment.
Stacy Ford	Croydon, England, UK	2018-04-23	I live in Horsham and this will affect the standard of living
Peter Thompson	Aldershot, England, UK	2018-04-23	It will ruin the environment and result in an unacceptable level of traffic in the Horsham area
jennifer oliver	Broadbridge Heath, England, UK	2018-04-23	This will be seen for miles. Unsightly and in the wrong place
Anya King	Headley, England, UK	2018-04-23	This will be so harmful to Horsham in so many ways - health if those in the area, property value, unsightly landmark seen for miles around in an area of natural beauty, industrial traffic coming from miles around, harm to local farm animals and wildlife- I see absolutely no benefit whatsoever and question why Horsham would even consider such a project
H Clarke	Horsham, England, UK	2018-04-23	Thanks for signing my petition. I hope you will also send your objection to the council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH. There is increasing evidence that incineration reduces the rate of recycling and emerging technologies mean this means of waste handling is virtually redundant. Developments in technology now present us with alternatives to incineration. As an example, MacRebur are now using recovered plastics as road surfacing, in place of tarmac. This will give us stronger roads (no potholes!), locks in microbeads preventing plastics pollution and is using plastic waste as a genuine resource. Once something is burnt it is gone forever, leaving only tiny air pollutants (called particulate matter) behind. When waste is incinerated it is no longer part of the circular waste economy that western countries are striving to achieve. In fact a paper released last year by the European Commission (The Role of Waste-to-Energy in the Circular Economy, dated 26.01.2017) warn

I believe even the scale of this building will impact the character and visual aspects of our rural market town and there are powerful environmental reasons for stopping the investment in this technology too. A paper released last year by the European Commission (The Role of Waste-to-Energy in the Circular Economy, dated 26 01 2017) warned that incineration would hamper the circular economy. They recommend investment in more recycling capacity and anaerobic digestion instead. We already have a Mechanical & Biological Treatment plant in Horsham, on the adjacent site to the proposed incinerator, which was part-funded by the taxpayer. In addition, DEFRA chief scientific advisor, Ian Boyd, has expressed his personal opinion that incineration extinguishes innovation and is worse than landfill because it destroys value. And then there are the health imp

Nalini Ragbir	Horley, England, UK	2018-04-23	I live here and I do not want this additional pollution!
H Clarke	Horsham, England, UK	2018-04-23	Thanks for signing my petition. Unfortunately this does not count as an objection with the Council, so I hope you will also send your objection to them at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH
Carly Farrell	Horsham, England, UK	2018-04-23	It's not right and not good for our area
Gemma Lee	Broadbridge Heath, England, UK	2018-04-23	We don't want an incinerator in a built up area!

Name	Location	Date	Comment
Joanna Astridge	Horsham, England, UK	2018-04-23	We do not want or need this in our town!
Annabelle Mcfeeters	Smallfield, England, UK	2018-04-23	This would have a negative effect on the area
Liz Duncan	Horsham, England, UK	2018-04-23	It's dirty and we are a family town who need fresh air to thrive not pollution
George Lawrance	Broadbridge Heath, England, UK	2018-04-23	I think it is wrong to build it there
Lee Dunn	Southwater, UK	2018-04-23	I don't think that this is an environmentally sound way to get rid of rubbish
Rachel Hogarth	Shere, England, UK	2018-04-23	Please sign, we need much cleaner ways to get rid of our rubbish
Kate Lee	Horsham, England, UK	2018-04-23	A harmful option - there are better ways to deal with rubbish
Sue Thompson	Sussex, England, UK	2018-04-23	Sue Thompson
Karen MacDonald	Horsham, England, UK	2018-04-23	So many reasons Discouraging recycling, importing other countries' waste, a tower so tall it needs a permanent light to warn aircraft, air pollution
H Clarke	Horsham, England, UK	2018-04-24	Thanks for signing my petition Unfortunately this does not count as an objection with the Council, so I hope you will also send your objection to them at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH

Neil Benstead	HORSHAM, England, UK	2018-04-24	I do not want an incinerator built in Horsham. Thanks.
Naomi Falvey	Horsham, England, UK	2018-04-24	I don't want my family breathing in toxic fumes.
Adrian Foulser	Crawley, England, UK	2018-04-24	I am signing this petition as I strongly object to an incinerator in Horsham close to many schools and proposed new houses.
Andrew Armstrong	Horsham, England, UK	2018-04-24	Horsham doesn't need an incinerator!
Scott Meadows	Horsham, England, UK	2018-04-24	If the WHO recommend a site like this is far enough away from the population then can anyone give me a reason why they are pushing for planning application again?"

Name	Location	Date	Comment
amy hodge	Crawley, England, UK	2018-04-24	I believe this is the wrong site for the incinerator, an area that is becoming increasingly built up should not have this in the area!
Fey Maas	Horsham/London, UK	2018-04-24	It would be bad for the environment
Barbara Munford	Horsham, England, UK	2018-04-24	The Horsham District has had an overwhelming amount of disruption of a number of years. It is time to let the communities and the environment have a chance to settle down.
Jo Thomas	Broadbridge Heath, England, UK	2018-04-24	I don't want my children breathing in the fumes we should be forcing more recycling instead.
Marielle Moore	Rusper, England, UK	2018-04-24	We have enough noise & pollution with planes flying over the village, we don't need this on top of it. Plus, what an eyesore this will be on our countryside.
Sara Stanborough	Altrincham, England, UK	2018-04-24	I value my children's health and it is close to houses.
Tracy Francis	Horsham, West Sussex, England, UK	2018-04-24	Signing because this is going to impact this area for many years to come and is not the best way to deal with waste. Way too much at stake here to let Britaniacrest walk all over us.
Tracie Carter	UK	2018-04-24	We already have significant landfill around the town. Please don't pollute our beautiful town further.
H Clarke	Horsham, England, UK	2018-04-24	Thanks for signing my petition. Unfortunately this does not count as an objection with the Council, so I hope you will also send your objection to them at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH.

Mel McConnell	Horsham, England, UK	2018-04-24	We don't want this eye sore
Darren Gregory	Horsham, England, UK	2018-04-24	I'm sick of the Horsham area becoming the go-to place for everybody else's crap including rubbish new homes, land-fill sites, incinerators all at the same time that services are being reduced and the area is becoming more dilapidated !!!!

Name	Location	Date	Comment
J Edwards	Horsham, England, UK	2018-04-24	Done!
Rosie Duff	West sussex, England, UK	2018-04-25	A few more signatures needed please No incinerator in Horsham
Lucy Holloway	Guildford, England, UK	2018-04-25	I'm signing because it is insane that this is being built in such a residential area! I wonder if the people bringing this forward live opposite to where this huge plant is being proposed? Also I'm against just burning rubbish adding more pollution to the atmosphere
Alla Sfakianakis	Horsham, England, UK	2018-04-25	Enough pollution from Gatwick airport No more !
eddy Griffin	Horsham, England, UK	2018-04-25	You should all have a burning desire to put a stop to this incinerator

alison diver	Horsham, England, UK	2018-04-26	Already done X
Justine Williams	Mannings Heath, England, UK	2018-04-26	This is inappropriate given the area of outstanding natural beauty and the ever increasing population. Building a chimney to pump toxins in to the air will only add to those being released by the aircraft surely. Let's preserve the countryside that isn't being developed!
H Clarke	Horsham, England, UK	2018-04-26	Thanks for signing my petition. Unfortunately this does not count as an objection with the Council, so I hope you will also send your objection to them at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH
Lisa Robinson	Crewe, UK	2018-04-26	As a previous resident of and regular visitor to Horsham, these plans are horrendous
Adam Reeves	Horsham, England, UK	2018-04-26	As a family that moved to Horsham in the last few years. The thought of sharing this wonderful area with something like this proposed monstrosity is deeply worrying. Nature, community and house value will all take a considerable hit. There must be more modernised ways to go!
anthony wytke	horsham, England, UK	2018-04-26	Short sighted with very little regard given to local residents. I'm 100% against an incinerator in Horsham. There are obvious issues NOT being addressed and it's obvious that Horsham Council is once again pandering to business rather than its people. The Shelley Fountain was a FAIL, the Acorn Plus lorries were a FAIL, the local affordable housing and 'supposed' added infrastructure has been a FAIL. I could go on. Time the Council listened to its people!

Name	Location	Date	Comment
Jackie Fallowfield-Cooper	London, England, UK	2018-04-26	There is an ever increasing growth in house building and growth in the population in and around Horsham In considering placing this facility in or near a growing community such as Horsham the developer is showing an extreme lack of foresight Should the local council approve these plans they will have let down an ever increasing community Where currently Horsham and the surrounding area is viewed as an attractive and thriving market town surrounded by beautiful countryside it's reputation as such will be seriously compromised
Lisa Carr	Horsham, England, UK	2018-04-26	I really don't want this to happen to horsham!
Felix Risley	HORSHAM, England, UK	2018-04-26	Having compared the impact of other recent incinerators on local communities it is clear that this is not te right place to site another one Reasons to object 1) eyesore of a chimney in beautiful countryside visible from far and wide 2) Significant increase in traffic on an already overcrowded road 3) Pollution with all the associated long term health impacts on new and established residential communities
Jonathan Fallowfield-Cooper	Horsham, England, UK	2018-04-26	This would impact on what is a beautiful area and have a detrimental affect on the local environment
Clare Airey	Horsham, UK	2018-04-26	I fear the impact this could have on families in North Horsham
Rosemary Couchman	Horsham, England, UK	2018-04-26	Thanks for signing the petition Unfortunately this does not count as an objection with the Council, so I hope you will also send your objection to them at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH

Philip Martin	Horsham, England, UK	2018-04-26	It will create unnecessary visual pollution
Tariq Etman	West Sussex, England, UK	2018-04-27	Simple it's not welcome here. We moved away from London with our daughters to get away from pollution and a nicer environment. Do not need this here.
Margaret Phelan	London, England, UK	2018-04-27	Please look for alternative methods. I am not in favour of this proposal.
Krystle Gass	UK	2018-04-27	I don't want an eyesore in our beautiful town and countryside, not to mention the extra noise, traffic and pollution it will generate too!
Sam Meaghan	Broadbridge Heath, England, UK	2018-04-27	This would have a detrimental effect on the local environment.
H Clarke	Horsham, England, UK	2018-04-27	Thanks for signing. Unfortunately this does not count as an objection with the Council, so I hope you will also send your objection to them at planning applications@westsussex.gov.uk stating reference WSCC/015/18/NH

Avril Phelps	Lancing, England, UK	2018-04-27	Air pollution is a problem throughout the UK and Europe and people appear to be unaware they are breathing in dangerous levels. This is in addition to the overall pollution situation.
Angela Brittain	Littlehampton, England, UK	2018-04-27	People come to West Sussex for a cleaner more natural way of life. A tall chimney with toxic smoke belching out somehow doesn't fulfill my hope of this. I know we have a huge waste problem but there are areas of the country that are not sooo near to people's houses. Please think again about the sighting of this. Councils must not put kick-back money before before people's right to clean air. Three money spinners are currently ruining the county way of life - high parking charges in villages, expensive business rates for retail outlets and allowing a small group of opportunists to create the agenda like incinerators and ice rinks that ruin the green space in a public park. We all know HDC needs money but I for one would rather pay a bit more council tax that allow some of these things to happen. Horsham and district has such an enviable heritage, let's not spoil it for jam today.
Rosemary Couchman	Horsham, England, UK	2018-04-27	Thanks for signing the petition. Unfortunately this does not count as an objection with the Council, so we hope you will also send your objection to them at planning_applications@westsussex.gov.uk stating reference WSCC/015/18/NH

H Clarke	Horsham, England, UK	2018-04-27	Thanks for signing my petition and for asking others to object directly to West Sussex County Council, which can also be achieved by email planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH
Catherine Harvey	Surbiton, England, UK	2018-04-27	I do not want a pollutant near me or my children. There are multiple other ways of disposing of waste which are more environmentally friendly and socially acceptable. These ways should be explored and invested in for a healthier and safer future.
H Clarke	Horsham, England, UK	2018-04-27	Thanks for signing my petition and for asking others to object directly to West Sussex County Council, which can also be achieved by email planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH
rachel macniven	Earley, England, UK	2018-04-27	I am concerned for the health of all local families and wildlife in the area. Horsham is doing more than its fair share concerning disposal sites.
Rosemary Couchman	Horsham, England, UK	2018-04-27	Thanks for signing the petition. Unfortunately this does not count as an objection with the Council, so we hope you will also send your objection to them at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH by 3rd May.
Inderpal Kalsi	Leeds, UK	2018-04-27	We moved to Horsham for a cleaner and better life for my young family. Having this on the doorstep is the complete opposite of why I'm here.
Rosemary Couchman	Horsham, England, UK	2018-04-27	Thanks for signing the petition. Unfortunately this does not count as an objection with the Council, so we hope you will also send your objection to them at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH by 3rd May.
Charlotte Bracken	Eastbourne, England, UK	2018-04-27	There will be pollution from toxins, light and noise. I fear for the health of me and my children and grandchildren as invisible toxins cloud the air. I'm concerned that the visual impact of this huge building will blight the landscape, destroying the character of Horsham and surrounding historic villages. The local nature reserve is worried about the impact to the delicate ecological infrastructure they have worked so hard to protect.
Heather Harvey	Australia	2018-04-28	It is the right thing to do for the environment!
Rhiannon Hansen	Søborg, Denmark	2018-04-28	I have friends living in this area who will be greatly and negatively affected by the installation, so believe it should be stopped.

Name	Location	Date	Comment
Dale Bristow	horsham, England, UK	2018-04-28	Dangerously unhealthy,find a better way to deal with waste

Jane Holden	Horsham, England, UK	2018-05-03	I am concerned about the environmental impact as well as air pollution which could have a huge impact on the health of the community.
Caron Porritt	Horsham, England, UK	2018-05-03	This plan is insane. Please see sense and reject it on the grounds of it being slap bang next to over 2,500 residential properties, schools and a nature reserve. Surely the sheer size of the chimney should ring alarm bells and do we really know what the emissions from it, linked with aircraft pollutants, will do to our long term health? Dr Marilyn Glenville is a very well respected infertility doctor with a practice in Tunbridge Wells and she has shared research

Name	Location	Date	Comment
			into air pollution and infertility and the disruption to teenage girls and their menstrual cycles Do we really want to risk the health of our children today and future generations tomorrow? Think about the long term picture and find another way
Melloney Roffe	London, England, UK	2018-05-03	There are better safer greener alternatives
Simon Hedger	Horsham, England, UK	2018-05-03	The location of this plant seems inconsiderate given the proximity to the local community and potential pollutant / health risks
Marjorie Long	Horsham, England, UK	2018-05-03	I'm not happy to be living near this We live in a very densely populated area!!!
Jane Hoad	Horsham, England, UK	2018-05-03	I am very concerned about the air quality implications for the many people who live close by
James Unsworth	Southwater, England, UK	2018-05-03	This would be a blight on the landscape, and would negatively impact air quality (and therefore) the living conditions of everyone living within several miles of the locus of the site The people of Horsham and the surrounding areas should not be expected to just 'put up' with this monstrosity
Tracy Francis	Horsham, West Sussex, England, UK	2018-05-03	This is totally the wrong place for this It should not be sighted anywhere near homes or schools
Tracey Mathias	Warnham, England, UK	2018-05-04	This will be so environmentally unfriendly to all that live in the area, humans and wildlife! let alone how bad the roads are going to be as if they weren't bad enough already!
Madeline Poynter	Horsham, England, UK	2018-05-04	I am very concerned about air pollution and increased traffic on already extremely busy roads The roads are in a shocking state already with potholes appearing every week
Julia Hayward	Horsham, England, UK	2018-05-04	I don't want it on my door step
Diane Jupp	Guernsey	2018-05-05	Concerned about pollution and increased traffic
Wayne Stutchbury	Horsham, England, UK	2018-05-05	This will be an eyesore and blight Horsham
Rosemary Couchman	Horsham, England, UK	2018-05-07	Thanks for signing the petition As this does not count as an objection with the Council, we hope you will also send your objection to them at planning_applications@westsussex.gov.uk stating reference WSCC/015/18/NH Thank you

Rosemary Couchman	Horsham, England, UK	2018-05-07	Thanks for signing the petition Please also send your objection to West Sussex County Council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH Thank you
Nik Blundell	Horsham, England, UK	2018-05-07	I'm signing because, this incinerator has capacity beyond that of the local area, so refuse from other counties will be imported, the chimney will be visible for miles, will be an eyesore, and a danger to air traffic landing at Gatwick, it will devalue the North Horsham housing (which I object to), which will result in the developer having to lower prices, which will mean less existing house prices will also drop

James Unsworth	Southwater, England, UK	2018-05-08	Don't worry, I did that before I signed this one!
Rosemary Couchman	Horsham, England, UK	2018-05-08	Would you be able to share today's request (Please ask one person in West Sussex to sign) with the Horsham Parents group, please? Many thanks
Lydia Sanderson	Horsham, England, UK	2018-05-09	After allowing a ludicrous number of new builds in the area without increasing the infrastructure to support so many people and allowing some of the ugliest and worst built social housing to be built in Roffey it is a disgrace to top it all with a noisy, ugly incinerator
Gael Wright	Mannings Heath, England, UK	2018-05-09	Concerned about the effects of fine particulate pollution on those with respiratory disorders such as asthma Reduce and recycle
Emma Park	Edinburgh, Scotland, UK	2018-05-09	There seems to many, better options available!
Rosemary Couchman	Horsham, England, UK	2018-05-09	Thanks for signing the petition Please also send your objection to West Sussex County Council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH Thank you

Paul Longley	Hurstpierpoint, England, UK	2018-05-09	Hi, As a construction dispute professional and with over 30 years experience in this industry, including working on the the largest waste-to-energy scheme in Europe (£400m in Greater Manchester) a few years ago, these plans for the Horsham incinerator close to the village of Warnham and the local nature reserve are very ill-judged, if not completely bonkers! Let's explore other, better options
Lewis White	Coulsdon, England, UK	2018-05-09	Sussex and South Surrey residents may not be aware that the air breathed by the people of South London and adjacent Surrey will soon be affected by the SW London Incinerator at Beddington (in London Borough of Sutton, on Croydon boundary) which was promoted by all 4 SW London boroughs--Croydon (then Conservative) , Sutton (Lib Dem) , Merton (labour) and Kingston (Conservative) There was

			no debate about the alternatives -- just a caving in of the councils to the proposed incineration
Rosemary Couchman	Horsham, England, UK	2018-05-09	Thanks for signing the petition Please also send your objection to West Sussex County Council at planning.applications@westsussex.gov.uk stating reference WSCC/015/18/NH Thank you.
Julie Pickett	Ewhurst, England, UK	2018-05-11	I have previously signed to object to this project We need to start re using items and finding more ethical and environmentally waysnif disposing if things and having less Why do you we need three plastic wrappers for each piece of fresh fruit or meat If we buy locallly and by quality produce and less. it promotes better health air and
Julie Pickett	Ewhurst, England, UK	2018-05-11	We need to spend money on reducing waste , people need to make an ethical decision each time they chose to buy something We need new technology for disposal of waste but the biggest help would be to reduce it This seems to me a belt and braces approach and one that is economical for the company Pressure the supermarkets to reduce packaging but equally encourage people to think and take some responsibility for their footprint and it's effect in ours and our children's health We need fresher air and not pollutants
