Building (35.9m) and stack (95m) visible

The screening effect of the Brookhurst Wood Landfill cannot be fully modelled in the ZTV.

The landfill is currently at a height of approximately 100 m AOD. This height will reduce after settlement to approximately 84 m AOD.

The height data used to generate the ZTV uses publicly available data from the Ordnance Survey. It has modelled the landfill at approximately 85 m AOD. The height model is based on two different surveys which show the landfill at different heights. This has caused a horizontal line in the ZTV to be shown
